Open IT up - Boosting Adult Educator Competences to Upskill Pathways of Adult Learners

(Erasmus+ KA204 n. 2017-1-ES01-KA204-038085)

The project aims to extend and develop educators' competences in the effective teaching of **literacy, digital** and **entrepreneurial skills** to vulnerable groups of adult learners. Read more about our project on the open platform www.openitup.eu.

Are you thinking of starting your own business?

Follow the story of one of our characters and check what they do to start their own business.

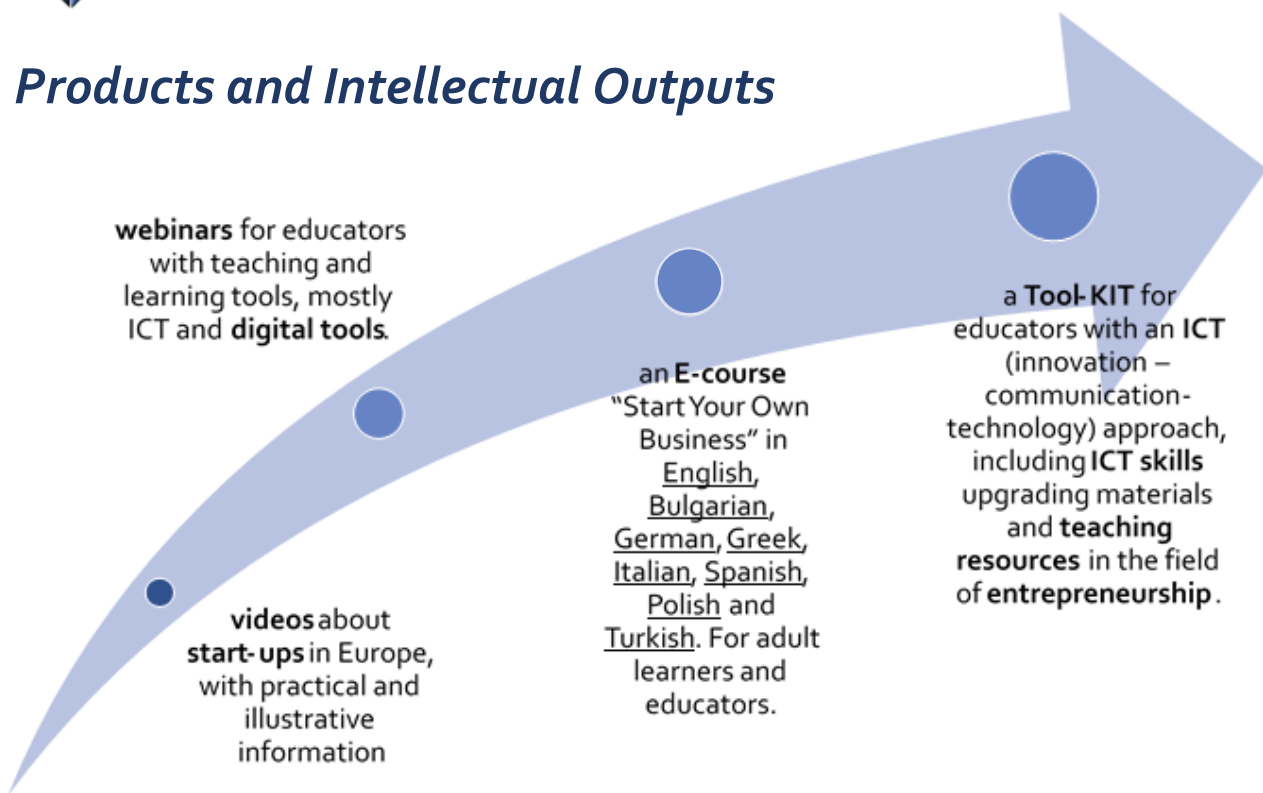

Adem is a farmer living in harmony with nature. Currently he is attending a course on organic farming. Is his organic farm a good idea? Let's see!

David is a steel worker but he lost his job. Does he manage to turn his passion for home improvement into a business? Read more!

Second Transnational Meeting in Lecco (Italy)

On **21-22 June 2018** in Lecco (Italy) took place the **second transnational meeting**. The representatives of eight European training organisations met to evaluate the first results: three sections of the **online course**. They also developed a **system of validation badges** to make the course more attractive.

One of the next steps in the project will be the preparation of **videos** about successful start-ups in Europe.

All information, materials and resources will be available for all on the open platform www.openitup.eu
