ONLINE MEETINGS

IN 2023 THE PARTNERS ORGANISED TWO ONLINE MEETINGS VIA ONLINE PLATFORMS.

On April 6, 2023, the partnership consortium convened via Zoom for the next online meeting to discuss progress and advancements. The primary focus areas of the meeting included translating the teaching materials, preparing for the upcoming pilot phase, finalizing the leaflet, and completing the students' questionnaire form.

The most recent online meeting occurred on May 25, 2023, using the Zoom platform. The partners engaged in discussions regarding updates on the pilot phase and specifically addressed the translation of the leaflet. Additionally, it was decided that the link to the platform would be placed in two locations: the project results section and the main menu. The next online meeting has been scheduled for June 22, 2023.

PILOT TESTING

IO2 (Intellectual Output 2) is specifically designed to provide young learners with specialized knowledge in the fields of design, engineering, and dedicated graphic design software platforms, while also enhancing their transversal skills. During the pilot testing phase of IO2, young VET students (10 in each partner country) actively participated and contributed to the formative development of the course titled "The Art Of Green Districts" They gained new skills and knowledge while collaborating as a group to design a Green District.

The results from the pilot testing will undergo evaluation, identifying areas that require improvement. Subsequently, necessary diagnoses and corrections will be made to enhance the course accordingly.

TRANSNATIONAL MEETING IN REUS, SPAIN

The 3rd TPM of the STEAM3D Academy project took place in Reus, the capital of Baix Camp, in the province of Tarragona, in Catalonia, Spain, in 30 - 31 of January 2023.

The TPM was organised by DOM SPAIN offered their conference room for the partners' meeting.

At the two-day meeting, the partners provided updates on their designated tasks in accordance with the agenda and guidelines presented during the online meetings.

All raised concerns were addressed and resolved, and specific next steps and responsibilities for each partner were outlined. Furthermore, deadlines for task completion were thoroughly discussed and established for every partner involved.

TEACHING MATERIAL PLATFORM

The courses developed for IO1 are available in both conventional and online formats through the Moodle Platform. These courses consist of a comprehensive range of components, including a framework/didactic grid, guidelines on construction/engineering/mathematics applied in site planning, teaching materials, complementary lesson plans and tips, course adaptation to the Moodle platform, guidelines on the Online Badge System, review processes, piloting, and translation. You can access the courses in English, Greek, Spanish, Bulgarian, and Polish by visiting the following platform:

UPCOMING

ONLINE MEETING

The partners have scheduled an online meeting for June 22 to review and discuss the results of the pilot phase for IO2 and the progress achieved for the Young Engineer's e-Portfolio (YEP) Handbook in IO3. The meeting will provide an opportunity to analyze the outcomes of the pilot phase and exchange information on the advancements made in developing the YEP Handbook.

TRANSNATIONAL MEETING IN THE GREECE

The partner, e-Nable Greece, will be hosting the 4th Transnational Project Meeting in Athens, Greece, in October 2023. As part of the preparations, they will be creating an information package that will encompass details about Greek culture, the meeting location, public transportation options, and the agenda for the event. This package aims to provide all participants with relevant information to ensure a smooth and enjoyable experience during their stay in Athens.
